Gordon appointed to fill the vacancy. The position is one of great importance, and the appointment of Capt. Gordon will prove entirely satisfactory to both the government and the boatmen. Although a young man, the appointee has had years of experience. The scores of friends of Capt. Vandervoort will regret that he has reeigned." THE St. Louis papers are acting wisely in urging prompt attention to keeping the wharf clean as the floods recede: "Considwharf clean as the floods recede: "Considerable uneasiness is being expressed as to the effect of the high water on the public health. If the debris and sediment is removed rapidly, as it can be by prompt attention on the part of the city authorities, no apprehension need be felt; but it is one of those things that must not be neglected. In addition to our flood disasters we don't want an epidemic, Extra means should be employed to pumpout cellars."
